### Bar options

In an effort to be cost effective, the newest thing to offer at weddings is one special drink called the Bride and Groom's signature cocktail (usually their favorite drink or a drink that reminds them of something special about their time together). Usually, this plus a wine choice and soda, offers a nice mix of alcoholic beverages to the guests. Later, the coffee and tea offerings pair nicely with a dessert buffet and wedding cake.

Bride and Groom's signature cocktail: **Price:** (varies with cocktail chosen) per person for two hours  
\*\*If this option is chosen, this plus the wine option can be combined and the time be extended to three hours for both.
